

List styling, Table styling and Opacity

Topics Covered

- List Styling
- Table Styling
- Opacity

List Styling

Alter Default Styling of List, using following CSS properties

1. `list-style-type` : Sets the marker style used for list items.
2. `list-style-image`: Sets an image to be used as the marker for list items.
3. `list-style-position` : Sets the placement of the list-item markers

List Styling – list-style-type

```
ul {  
  list-style-type: circle;  
}
```

- Pepsi
- Coke
- Red Bull

```
ul {  
  list-style-type: square;  
}
```

- Pepsi
- Coke
- Red Bull

```
ol {  
  list-style-type: upper-roman;  
}
```

- I. Pepsi
- II. Coke
- III. Red Bull

```
ol {  
  list-style-type: lower-alpha;  
}
```

- a. Pepsi
- b. Coke
- c. Red Bull

List Styling – list-style-image

```
ol {  
  list-style-image: url("check.png");  
}
```

- ✓ Pepsi
- ✓ Coke
- ✓ Red Bull

List Styling – list-style-position

```
ul {  
  list-style-position: outside;  
}
```

- Pepsi
- Coke
- Red Bull

```
ul {  
  list-style-position: inside;  
}
```

- Pepsi
- Coke
- Red Bull

List Styling – list-style-position

HTML

```
<table>
  <tr>
    <th>Firstname</th>
    <th>Lastname</th>
  </tr>
  <tr>
    <td>Mangesh</td>
    <td>Thakare</td>
  </tr>
  <tr>
    <td>Prabir</td>
    <td>Kumar</td>
  </tr>
  <tr>
    <td>Vinay</td>
    <td>Pratap</td>
  </tr>
</table>
```

Default Style

Firstname	Lastname
Mangesh	Thakare
Prabir	Kumar
Vinay	Pratap

Adding Border to Table

CSS

```
table,  
td,  
th {  
  border: 1px solid black;  
}
```

Firstname	Lastname
Mangesh	Thakare
Prabir	Kumar
Vinay	Pratap

Collapse Border in Table

CSS

```
table {  
  border-collapse: collapse;  
}
```

Firstname	Lastname
Mangesh	Thakare
Prabir	Kumar
Vinay	Pratap

Adding Width, Padding and Background Color

CSS

```
th,
td {
  width: 200px;
  padding: 10px;
}
```

```
tr:hover {
  background-color: rgb(188, 88, 88);
  color: white;
}
```

Firstname	Lastname
Mangesh	Thakare
Prabir	Kumar
Vinay	Pratap

Now our table looks more beautiful!!!

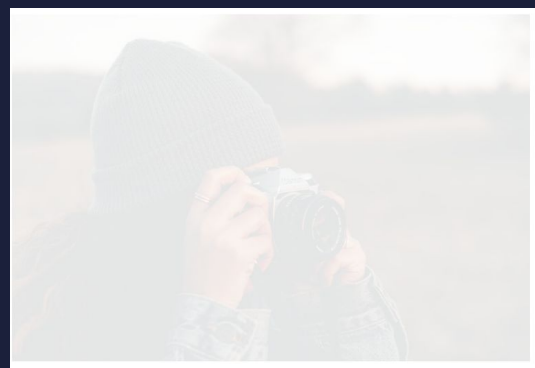

Opacity

The opacity property determines the level of transparency for an element.

```

```

```
img {  
  opacity: 0.1;  
}
```

```
img {  
  opacity: 0.5;  
}
```

```
img {  
  opacity: 0.8;  
}
```

```
img {  
  opacity: 1;  
}
```
